Full-Time Enrollment Student

For full-time or second semester enrollment, the date a student withdraws will determine what, if any, percentage of total private school tuition may be refunded. Please note that refunds can take up to 30 days to be processed. In some instances, a family may owe a final tuition payment at the time of withdrawal. All refunds or final payments will be calculated when reviewing the family's account as part of the withdrawal process. The registration fee paid at the time of enrollment is non-refundable. The tables below summarize the percentage of tuition refunded by withdrawal period, regardless of school year. Please refer to the [admissions calendar](#) for school year specific dates:

*The first or second day of a semester are in reference to the school's [admissions calendar](#). This may be different than a student's actual class dates if they are starting later in the semester. Dates are subject to change.

For purposes of this student refund policy, first and second semester private school tuition rates as referenced above each equally represent 50% of the total tuition due, with the first semester portion being applied from the first day of the school year through the last day of first semester; and the second semester portion being applied from the first day of second semester to the last day of the school year.

¹If you select a payment plan, depending on your payment cycle, you may or may not be owed a refund. In some cases, you may owe WonderED K-12 Academy a portion of your tuition due.

²If you withdraw between December 1st and the first day of second semester, the total tuition due for your participation in the first semester will be adjusted to the semester tuition rate. Any refund due will be calculated using this semester tuition rate.

³If you enroll in WonderED K-12 Academy for the full academic year, but choose to withdraw prior to second semester, you must withdraw on or before the first day of second semester if you wish to be released from tuition payments for the second semester. If you withdraw after the first day of the second semester, you will be obligated to pay first semester tuition plus a prorated portion of second semester tuition.

⁴If a student begins Fall & Spring course work during the same semester, Full Year tuition will be required, and the refund amount will be adjusted regardless of the calendar date of withdrawal. If a student completes a full semester of curriculum, that will constitute 100% tuition liability for the semester regardless of the calendar date of withdrawal.
